Fluz Parties Quick Guide

So what's a Fluz Party?

At Fluz, cashback is more fun (and even more rewarding) with friends. That's why we've rolled out Parties - our unique cashback events *when more people shop, the higher the cashback rate is for everybody.*

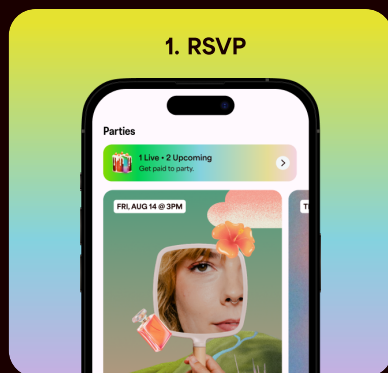

Can you give me an example?

Let's say we're having a Fluz Party for Chevron gasoline. When you log into your app and shop the party, you get 10% cashback no matter what. But, here's the fun part, when 250+ people shop, you'll unlock a bonus so everybody gets 20% cashback.

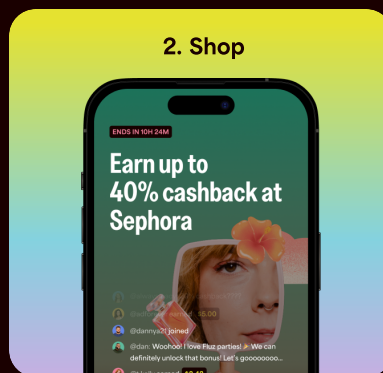

How do I get in on the action?

It's as simple as 1-2-3

1. RSVP

From the main page in Fluz, tap on "get paid to party" and RSVP - that will remind you when the party sale period starts

2. Shop

When the time comes (usually a Thursday, but we like to change it up!), head to your Fluz app and open up that Party. Buy your gift card.

3. Share & Unlock

Share the party with your friends - Fluz member or not. When the total party goal (number of buyers) is unlocked, you'll get even more cashback in your Fluz account.

What happens after the Party ends?

Use that gift card right away, save it, or share it. We'll store it in the Fluz app securely for when you're ready to make your purchase with the merchant.

You can send your cashback to your bank account (withdrawal requirements apply) or spend it on your next Fluz purchase - it's up to you.

COME WITH FRIENDS. LEAVE WITH CASHBACK.

Fluz Parties FAQ

Do I have to use the Gift Card I bought in the Party right away?

Get that cashback now, spend on your schedule. Once you have your gift card, think of it like store credit. You can add it to the merchant's app if they have one (like Uber or Walmart), spend it right away in-store or online, or we'll keep track of it in Fluz so you can use it later.

Why should I share a Fluz Party?

At Fluz, we believe everybody wins together. That's why sharing pays off - the more people you tell about a Fluz Party, the more you get... and the more they get. Unlocking the Party bonus by spreading the word pays off for everybody.

How can I get even more out of Fluz?

Fluz offers up to 25% cashback at hundreds of major national brands by shopping with gift cards. You can see the full catalog and use Fluz to get paid for running errands, shopping online, and taking trips.

Fluz also has a virtual Mastercard* you can use to get at least 1.5% cashback - all with **no credit check, no annual fee, and no nonsense.**** It's premium credit card-level cashback without the premium annual fee or restrictive credit check.

If you've got your phone, you've got Fluz - so keep on earning that cashback.

Does Fluz reward me when I tell my friends about it?

At Fluz, we believe in paying people and helping everybody max their money. That's why we reward you every time you share Fluz - and somebody you referred earns cashback:

- 🍌 Get \$5 for every new qualified*** Fluz member you refer - no limit, no cap. Invite 5 friends? Get \$25 for sending a few text messages! Invite 5,000 social media followers? Get \$25,000.
- 🍌 Keep the rewards coming with Fluz Royalties**** - whenever one of your referrals (and their referrals, too) uses Fluz, you get a "thank you." We call that our Royalties program.
- 🍌 You can find out more about our referral programs in the Side Gig section of our website at fluz.app

* In order to use this card, you must agree to the terms and conditions of the Fluz Authorized User Terms and fee schedule, if any. The Fluz 1-time Mastercard is issued by Patriot Bank, N.A., pursuant to a license from Mastercard.

**Fluz offers cashback rewards with no credit checks, no monthly or annual fees. Most premium rewards cards currently in the market require a monthly or annual fee.

***New member must spend at least \$25 on Fluz.

****The referral royalties you can earn on anyone in your network is endless. But each of your networks can only go up to 5 degrees of connection away. A user can have multiple networks in the Fluz app.
